

TOOLS FOR SLIDING RING FITTINGS

TBS5 12-25 (EN) V2 2013-04-25

AC-FIX tool 12-25

AC-FIX tool 12-25 to assemble sliding ring fittings and valves for PEX and PB pipes.

Components

- Assembly tool.
- Adapters and cradles for the different pipe diameters.
- Pipe expander.
- Pipe cutter.
- User manual.
- One year guarantee card. (*)

Advantages:

Assembly tool:

- The sliding shaft of the tool and its internal parts are made with hardened special steels in order to increase the resistance of the shaft teeth and all the internal mechanism.
- Reinforcement of the base of the cradle supports that increases the resistance of the cradle supports and the lifetime of the tool.
- Individual serial number that allows an accurate tracking of the guarantee.
- All the internal mechanism is oiled as standard.
- The AC-FIX assembly tool 12-25 is guaranteed for one year in Europe. (*)

Pipe expander:

- Individual serial number.
- Manufactured with rounded edges not to damage the pipes.

Demonstration video

- See the demonstration video in our web site. www.ac-fix.com

(*) Remark: Out of Europe, our distributors apply specific guarantees in their countries.

TOOLS FOR SLIDING RING FITTINGS

Packaging

Purchase options:

	Code	Image
Complete box 12-25	100.1225.56	
Assembly tool 12-25 and pipe expander 12-25	100.1225.54	
Assembly tool 12-25 and adapters	100.1225.53	
Pipe expander	100.0005.50	
Pipe cutter	100.1240.55	

TOOLS FOR SLIDING RING FITTINGS

Production of high precision and strict quality control

The AC-FIX tools 12-25 for assembly of sliding ring systems are machined with high precision CNC machines. The high quality of our production and the strict controls of the dimensions, hardness and composition guarantee reliable tools for professionals.
